PROFESSIONAL SUMMARY

- 1.8 years of experience in Web Application development.
- Expertise in server side component development with Servlets, JSP, JDBC.
- Good experience on Database programming with JDBC.
- Good knowledge on OOP's concepts.
- Knowledge of JavaScript, JQuery, Ajax, HTML, CSS
- Knowledge of Spring MVC and Hibernate programming.
- Hands on experience on deploying applications on Tomcat, Jboss.
- Good Familiarity on using IDE like Eclipse.
- Developing, testing, troubleshooting and debugging of the application.
- Good Familiar with AWS, EC2 Instance.

SKILLS

- Languages: Java, J2EE.
- Front End: HTML, JavaScript, React.JS, CSS, Angular.
- Operating System: Windows XP/7/8/10, Ubuntu.
- Databases Tools: SqlServer, My SQL 8.0., Oracle

- Technologies: JSP, REST Web services, Spring MVC, Spring Boot, Hibernate, JUnit.
- IDE and Utilities: Eclipse, Notepad++, JenKins, Jira.

PROFESSIONAL EXPERIENCE

Company Name	Designation	Duration	Technologies
G-square Techsystems Pvt Ltd	Software Developer	Aug 2023 – Till Date	Java Technologies
PHN Technology	Software Developer & Tester	Jan 2023 – Jul 2023	Java Technologies, Selenium

PROJECTS

ERP System Design For G-Square TechSystem.   **Aug 2023 -Present**

• ERP System is a next generation web and service oriented software platform that is responsible to do Account Releated Invoicing.
• It provides solutions like Employee Registration, Client Registration, Employee Purchase Order Creation, Project Purchase Order Creation, Invoice Creation For Employee, Project And Other Charges ,Summary Details, Outstanding Details(Paid and UnPaid History), Report Creation, Agreeement Creation, Quotation Creation Download in PDF and Excel.
•There are different modules like UI, Services, Back-end Processor, Database & Third party services, which together form this platform.

Tasks and responsibilities:
• Involved in development, unit testing, defect fixing of functionalities.
• Involved in development of Accounting Invoices. Achieve it within the given time-lines with minimum defects. • Provide technical and functional support to testing teams.

Technology:-
• Spring 6.1.3, Spring Boot 3.1.8,JPA-Repository, Hibernate, Maven, Core Java, ReactJS ,MaterialUI, MySQL,Restful Web Services.
• Server:- Tomcat
• OS:- Windows.

Testing And Develop PHN Technology Careers Site.   Jan 2023- Jul 2023
Overview: During my internship at PHN Technology, I contributed as an Automation Software Tester & Java Developer, focusing on both testing and development tasks, particularly for the PHN Technology careers site.

Key Responsibilities:
• Developed and executed automated test scripts using Selenium to validate the functionality and performance of the software.
• Wrote and maintained detailed test cases to cover various aspects of the software, ensuring comprehensive testing coverage.
• Performed manual testing for specific features where automation was not applicable, identifying and reporting defects.
• Developed certain components of the application using Java and Spring Boot, enhancing the overall functionality and integrating them with existing modules.
• Collaborated with the development team to understand requirements and provided feedback on potential issues or improvements.
• Assisted in maintaining the testing environment and troubleshooting any issues that arose during testing.
• Contributed to the overall quality assurance process, ensuring that the software met the highest standards before deployment.

Tools & Technologies Used:
• *Programming Language & Framework:* Java, Spring Boot
• *Automation Tool:* Selenium
• *Testing Approach:* Both automated and manual testing methods

EDUCATION

Sr. No.	Qualification	Board	Year	School/collage	Grade/Class
1.	Bachelors of Engineering	Savitribai Phule University, Pune	2021	Sinhgad Academy of Engineering, Kondhwa	73.84%
2.	Diploma	Autonomous	2018	Cusrow wadia Institute of technology, Pune	70%
